

Designer Dentistry Dazzles Guilford Gatehouse

A new era in dentistry has arrived. Michael Dental Care in Guilford opens its doors in August and heralds this change. Cutting edge technology, spa-like amenities, and environmentally sound practices are all part of this future dental office.

Kids won't complain when they learn of the multi-media screens mounted on the ceiling and Grandma and Grandpa won't have to fear back pains: massaging dental chairs are the prescription of choice.

Dr. Vincent J. Michael, D.M.D. says he started his practice in order to

"...incorporate the latest dental technologies into the most relaxing environment possible."

And relaxing it will be. Personal attention and spa-like amenities help to make this office stand out. Soothing music, water fountains, and aromatherapy help to create a peaceful atmosphere. Hot towels will be given out at the end of each appointment.

Michael Dental Care also uses an air purification system that "...keeps air refreshing throughout the office to eliminate the scents generally associated with dental offices," Dr. Michael explained.

Michael Dental Care provides full-scope general and cosmetic family dentistry services. Preventative care services include exams, cleanings, and sealants. Cosmetic restorative services include tooth-colored fillings, crowns and bridges, tooth whitening, implants, and veneers. Gum-disease therapy is also provided.

Integral to Michael Dental Care are the latest technologically advanced services. Electric drills that run virtually vibration and noise-free, digital X-rays using 70 to 90 percent less radiation, intra-oral cameras, and state-of-the-art sterilization practices put Michael Dental in a class of its own.

A few new services are also featured. Invisalign "straightens teeth with a series of clear, virtually invisible custom-molded retainers...the smile you've always wanted without the hassle of braces."

Dr. Michael also described Angel-Lift, a "non-invasive, non-surgical removable device placed in the mouth designed to give patients a 'face-lift' by reducing lines and wrinkles."

Dr. Michael believes this is how modern dentistry should be done and says the fees at Michael Dental are generally the same as other dental offices.

"We want everyone to experience our dental philosophy and we believe that people will be getting 'more for their money' at our office."

The office is open Monday through Friday by appointment. Flexible hours are featured with early mornings and late evening appointments available. Michael Dental Care also submits insurance claims for its patients.
